Sec. 10. (1) Except as otherwise provided in the code, before construction of a building or structure, the owner, or the owner's builder, architect, engineer, or agent, shall submit an application in writing to the appropriate enforcing agency for a building permit. The application shall be on a form prescribed by the commission and shall be accompanied by payment of the fee established by the enforcing agency. The application shall contain a detailed statement in writing, verified by affidavit of the individual making it, of the specifications for the building or structure, and full and complete copies of the plans drawn to scale of the proposed work. A site plan showing the dimensions, and the location of the proposed building or structure and other buildings or structures on the same premises, shall be submitted with the application. The application shall state in full the name and residence, by street and number, of the owner in fee of the land on which the building or structure will be constructed, and the purposes for which it will be used.

(2) If construction is proposed to be undertaken by a person other than the owner of the land in fee, the statement shall contain the full name and residence, by street and number, of the owner and also of the person proposing the construction. The affidavit shall state that the specifications and plans are true and complete and contain a correct description of the building or structure, lot or parcel, and proposed work. The statements and affidavits may be made by an owner, or the owner's attorney, agent, engineer, architect, or builder, by the person who proposes to make the construction or alteration, or by that person's agent, engineer, architect, or builder. A person shall not be recognized as the agent, attorney, engineer, architect, or builder of another person unless the person seeking recognition files with the enforcing agency a written instrument, which shall be an architectural, engineering, or construction contract, power of attorney, or letter of authorization signed by that other person designating the person seeking recognition as the agent, attorney, architect, engineer, or builder and, in case of a residential builder or maintenance and alteration contractor, architect, or engineer, setting forth the license number of the person seeking recognition and the expiration date of the license.

(3) A person licensed or required to be licensed as a residential builder or residential maintenance and alteration contractor under the occupational code, 1980 PA 299, MCL 339.101 to 339.2919, a plumbing contractor or master or journeyman plumber under article 11 of the skilled trades regulation act, MCL 339.6101 to 339.6133, an

electrical contractor, master electrician, or electrical journeyman under article 7 of the skilled trades regulation act, MCL 339.5701 to 339.5739, or pursuant to a local ordinance, or a mechanical contractor under article 8 of the skilled trades regulation act, MCL 339.5801 to 339.5819, who applies for a building permit to perform work on a residential building or a residential structure shall, in addition to any other information required pursuant to this act, provide on the building permit application all of the following information: (a) The occupational license number of the applicant and the expiration date of the occupational license. (b) One of the following: (i) The name of each carrier providing worker's disability compensation insurance to the applicant if the applicant is required to be insured pursuant to the worker's disability compensation act of 1969, 1969 PA 317, MCL 418.101 to 418.941. (ii) The reasons for exemption from the requirement to be insured if the applicant is not required to be insured under the worker's disability compensation act of 1969, 1969 PA 317, MCL 418.101 to 418.941. (c) One of the following: (i) The employer identification number, if the applicant is required to have an employer identification number pursuant to section 6109 of the internal revenue code, 26 USC 6109. (ii) The reasons for exemption from the requirement to have an employer identification number pursuant to section 6109 of the internal revenue code of 1986, 26 USC 6109, if the applicant is not required to have an employer identification number pursuant to that section. (d) One of the following: (i) The Michigan employment security commission employer number, if the applicant is required to make contributions pursuant to the Michigan employment security act, 1936 (Ex Sess) PA 1, MCL 421.1 to 421.75. (ii) If the applicant is not required to make contributions, the reasons for exemptions from the requirement to make contributions under the Michigan employment security act, 1936 (Ex Sess) PA 1, MCL 421.1 to 421.75.

(4) The building permit application form shall contain the following statement in 8-point boldfaced type immediately above the location for the applicant's signature: "Section 23a of the state construction code act of 1972, 1972 PA 230, MCL 125.1523a, prohibits a person from conspiring to circumvent the licensing requirements of this state relating to persons who are to perform work on a residential building or a residential structure. Violators of section 23a are subjected to civil fines."

(5) The application for a building permit shall be filed with the enforcing agency and the application and any other writing prepared, owned, used, in the possession of, or retained by the enforcing agency in the performance of an official function shall be made available to the public in compliance with the freedom of information act, 1976 PA 442, MCL 15.231 to 15.246. An application shall not be removed from the custody of the enforcing agency after a building permit has been issued.

(6) This section shall be construed to allow the imposition of requirements in the code, or in other laws or ordinances, for additional permits for particular kinds of work, including plumbing and electrical, or in other specified situations. The requirements of the code may provide for issuance of construction permits for certain of the systems of a structure and allow construction to commence on those systems approved under that permit even though the design and approval of all the systems of the structure have not been completed and subsequent construction permits have not been issued.

(7) A building permit is not required for ordinary repairs of a building or structure.

(8) A building permit is not required for a building incidental to the use for agricultural purposes of the land on which the building is located if the building is not used in the business of retail trade.
