Equalization Director Porterfield stated that these reports are due annually. Report 4037's shows that all townships come in at 49% - 50% assessed value, to true cash value in every class. There was no need to apply any factors to the assessment rolls. The 4024 breaks it down more by class and total value across each township, in a blanket form. This form goes to the State of Michigan. Form 4037 goes to each local township, in their assessment rolls.
